LESSON PLAN 24: COLOUR-CODED GRAMMAR

Objective: To identify types of words and uses of grammar

Age range: 6-12

YOU WILL NEED

▶ Computer, word processing software

DEVELOPING SKILLS

Literacy, grammar, problem-solving, using a keyboard and mouse

METHOD

1. Type/insert some sentences or paragraphs and save document.

2. Ask students to access the document and identify certain types of words and uses of grammar by highlighting and changing the font colour. For example, make all the nouns red, verbs green and pronouns blue.

The man drives the car. He likes it.

3. Students can save the document and send to you for review – or check their efforts against a 'correct' document.

ADDITIONAL ACTIVITIES

• Use different texts
• Identify different grammar
• Use languages other than English
